## Contact

### Phone

9810091817

### Email

sandeshjoshi2211@gmail.com

### Address

Chapagaun, Lalitpur

## Skills

- HTML, CSS
- Bootstrap
- Javascript
- PHP
- Laravel
- mySQL
- Photoshop, Illustrator
- Flutter
- Firebase

## Education

September

**2019 - 2023**

The British College

**BSc. Hons Computing**

**2017 - 2019**

Shree Bajrabarahi Sec. School

**H.S.E.B**

**2016**

Emerald English School

**S.E.E**

## Academic Projects

### 1. EzFresh (Ecommerce Website) -

In my third year of my Bachelors, I had an opportunity to work on a college group project with a total of five members. We were given a case study and assigned to build a responsive e-commerce website from scratch within the period of 3-4 months. The module name was Project Management so we had to use the concepts of the module like initial, planning, execution, monitoring/controlling and closing phase. The main language or frameworks used for this project was:

- HTML/CSS
- Javascript
- Bootstrap
- PHP
- mySQL (Apex Oracle)
- Paypal (for payment integration)

### 2. Simple Website using Laravel -

A simple shopping website focused on CRUD operation was assigned to us during the start of our last year. Using laravel, I learned about Models, Views, Controllers, ORM, Authorization, Routing, and so on.

### 3. WhatsApp Clone using Flutter -

For the final year project, I proposed to build a whatsapp clone mobile application and it was accepted so using the flutter for front end and firebase for backend i was able to replicate the whatsapp application.

## Experience

### Cloud Factory, Nepal

**[Sept. 2021 - Jan. 2023]**

Data Analyst

As a data analyst, I was responsible for labelling various videos and images so that machine learning models could recognize them. I have worked on a few workstreams/projects. Such as:

- In some projects, for instance, we needed to track the basketball player and label their properties such as jersey number, jersey color, and also track the ball frame by frame.
- In other projects, we had to label all the body parts of a person.
- I have also participated in a data entry project.
